Racing Kid's Gift Of A Lifetime!

MSRP \$495

Kidracer® Formula 5

World's Best Battery Ride On For Ages 3-7

www.kidracers.com

Since the first Kidracer's event at Watkins Glen International Raceway in 1988, thousands of children participated in hundreds of driving schools and races all over the USA using various cars. Now Kidracers are World Wide!

The All New Kidracer® design©, patented by former Can Am driver and SCCA 1970 National Champion Oscar Koveleski, is a result of those tests and experiences. "It's designed to be 'race tough', look and drive like a real race car, and maintenance free! Just recharge the batteries after each use. It's 47 lbs. of real race car, with a 2 speed shifter, race quick steering, and fits in the back seat of most cars! Nothing else comes close! The Kidracer program teaches kids self confidence and how to be responsible to each other.", says Oscar.

Kidracers will be available at participating toy & department stores, and auto racing & parts dealers. Visit the web site at www.kidracers.com for a 2 minute video and ordering info.

"Learn To Drive Before 5"

Removable Decals on car
